PALM COAST WELCOMES YOU

PALM COAST is a slice of "Natural Florida" along one of the last unspoiled beaches on Florida's east coast, surrounded by live oak hammocks and the Matanzas River. Tee off on a Jack Nicklaus-designed course or fish in the Intracoastal Waterway; indulge in a rejuvenating spa treatment or stroll through formal gardens in Palm Coast. Nearby marshlands and estuaries in Palm Coast harbor rare and endangered birds along Florida's Great Birding Trail, such as the roseate spoonbill, wood stork, great blue heron and osprey. Dolphins play in the wake of passing boats and manatees herd in the waterway during spring and summer. Eco-tours on water and land introduce you to the rife wildlife of Palm Coast in what has been designated the most productive ecosystem on the planet.

KEYNOTE SPEAKERS

Dr. James Downer

UC-Ventura County Extension
Ventura, CA

Dr. Jim Downer has 33 years of experience as a horticulture and plant pathology advisor with the University of California Cooperative Extension in Ventura County. Dr. Downer's academic training is from Cal Poly, Pomona, (BSc. horticulture & botany, 1981; MSc. biology with an emphasis in plant pathology, 1983; Ph.D. in plant pathology, 1998 from University of California, Riverside. Dr. Downer's research is focused on mulch, soil microbiology and disease suppression in mulched soils, diseases of shade trees and other landscape plants and cultural practices to maintain landscape plants. Dr. Downer is a member of the International Society of Arboriculture as well as the Western Chapter ISA (past President), the International Society for Horticultural Science and the American Society of Horticultural Science. Dr. Downer has a love of shade trees, tree work, wood working, gardening, horticulture and the general study of plants and plant biology.

Dr. Jason Grabosky

Rutgers University
New Brunswick, NJ

Dr. Grabosky, a professor in the Dept of Ecology, Evolution and Natural Resources, is the John and Eleanor Kuser Faculty Scholar in Urban and Community Forestry at Rutgers University. He currently serves as the faculty co-director of the Center for Resilient Landscapes, a Joint Venture of the NJ Agricultural Experiment Station and the USDA Forest Service. Jason also serves as the Director of the General Honors Program for the School of Environmental and Biological Science, and as the Editor and Chief for the international journal *Arboriculture & Urban Forestry*. His research is varied, but is most often linked to trees, soils and management in some manner. He teaches classes related to trees and honors seminars in general biology and scientific method.

James Urban

The Office of James Urban, FASLA
Annapolis, MD

James Urban, FASLA is well known for his skills in the areas of urban arboriculture and soils, including the preservation and installation of trees in the urban environment and the specification and installation of specialized planting soils for roof gardens, urban landscape plantings, and rain water management. He has written and lectured extensively on the subjects of soil and urban tree planting and has been responsible for the introduction of many innovations and current standards relating to urban tree plantings and soil specifications. In 1997, the American Society of Landscape Architects (ASLA) awarded him a National Merit Award for his work on urban trees and the following year he was made a Fellow in the ASLA. In 2007 he was awarded the ASLA Medal of Excellence. In 2013, ISA gave him its Award of Achievement. His most recent book, *Up by Roots*, was published by ISA in 2008. He was instrumental in the development of Structural Cells (Silva Cells), structural planting soils, micro root paths, and macro soil trench techniques.
